- 4. As a result of my research, a problem has surfaced which I think is worthy of some consideration. I believe that from the administrative, managerial, and possibly legal standpoint, our headquarters regulations need revision. Delegations and subdelegations of authorities are scattered throughout the regulations. I have found them tucked in statements of office functions and "hidden" among substantive sections, such as those dealing with types of and eligibility for allowances. It appears that much needs to be done to straighten out our regulations; however, this requires a policy decision as to whether it will be STATINTL done, and if so, how it will be done and who will do it.
- 5. In the remainder of this paper each of the 1950 delegations, as amended, is listed along with a statement of the person(s) to whom the authority is delegated by the 1950 memorandum, as amended, and the number of the present day regulation, if any, where this delegation is found.
